Testforge Overview

OVERVIEW

The inaugural edition of TestForge 1.0 successfully brought together software testing enthusiasts, professionals, and stakeholders to exchange knowledge, share innovative ideas, and build stronger networks within the tech community. The event featured insightful sessions, interactive panels, and practical workshops aimed at advancing software quality assurance and testing practices.

THE CHAIRMAN'S SPEECH

Testforge is coined from the word Testing and Advancing. In the world where technology is taking a toll on every business, the need to upskill and research on the future of software testing is inevitable. Building quality software applications encourages user traffic on your business. In order to keep your customers glued to your business page and do business seamlessly on your application; a user centric application is required.Every user want to explore and feel secure to tender their vital information without any fear of decryption. Herecomes the birth of Testforge, where Software Testers meet with Experts with likeminds and discuss the future and advancement of QA. It is also a platform for industry leaders to meet best of talents in QA. This is what Testforge upholds.

EVENT DIRECTOR'S SPEECH

As our profession implies, we cannot afford anything less than quality and standard. It's really a privilege to play a major role at Testforge 1.0; the largest gathering of software testers in Lagos 2024, where talents meet opportunities. It was challenging but working with a great team makes tasks easy to execute. From hosting an exciting and impactful icebreaker event for 500+ participants to reading testimonies from far and wide of the benefits and opportunities given to many.
The event reinforced our belief that quality comes first, and we're excited to keep pushing the boundaries of software testing. Thank you.

Join us at TestForge 1.0 and be a part of the movement driving excellence in software testing. Together, we'll shape the future of quality in the digital era.

PROGRAM OF EVENT

The event was anchored by a renowned media personality, talent manager, creative director and producer/host of the podcast "Simply what I think" with about 10 years experience in the entertainment industry, his name; LORD OMEGA. Lord Omega has crafted the art of engaging eloquently in both social and corporate events. Lord Omega is a man of steeze and composure, with inspiring conversations that'll keep you energized and entertained.

MARIAM YUSUF; is another dynamic product manager with proven excellent track records. Her eloquence, energy and dedication to innovation and quality makes her the perfect host for Test Forge 1.0.

PANEL SESSIONS

Oluwatobi Fagbohungbe is the founder of Qace Group (a visionary team behind Test Forge) as our keynote speaker. Oluwatobi Fagbohungbe is a seasoned Quality Assurance Engineer, ISTQB Certified. A mentor, teacher, coach and incredible leader with massive result-oriented track records.

He delivered a groundbreaking session on Software Testing - Advancing Quality in the Digital Era. It was electrifying and very impactful. He splitted the challenges of ensuring excellence in today's tech-driven world.

Engineer Yusuf Abba-Kyari
Engineer Yusuf Abba-Kyari, is a founder of Software Testing Nation. As one of our keynote speakers, he delivered a session on **Risk Management in Software Testing**, emphasizing the importance of identifying, analyzing, and mitigating risks to ensure robust and reliable software systems. His insights left the audience inspired and equipped with actionable strategies to tackle challenges in the ever-evolving tech landscape.

It was a great and rewarding event, the panel session was very insightful, I sincerely appreciate the Qace Tech team for the beautiful event, looking forward to TestForge 2.0 and more

Bayowa Toritseju
5/5 · 2 Dec

I believe the next version will be more better and bigger.... Kudos to Qacetech

Oluwashina
5/5 · 1 Dec

Thank you for this impactful session. I had so much to pack from the speakers' wealth of experiences

NEXT STEP

1. **TestForge 2.0**:
   - Scale the event to accommodate more global participants.
   - Introduce new themes like AI in Testing and Security Testing.
2. **Continuous Engagement**:
   - Build an online community for TestForge participants to share resources and opportunities.
   - Quarterly webinars to keep the momentum alive.
3. **Partnerships Expansion**:
   - Broaden collaboration with companies and educational institutions to further QA education.

GALLARY

ACKNOWLEDGMENTS

As we reflect on the success of TESTFORGE 1.0, we are filled with immense gratitude for the phenomenal contributions of our guest speakers and the magnificent history we have created in promoting quality across industries.

We appreciate all our panelists for taking time to share knowledge and experiences. The sessions were nothing short of amazing, engaging and inspiring. The panel sessions illuminated the path for our attendees, expert stories, solutions, and thought-provoking ideas have not only educated but also empowered everyone who attended.

We are so fortunate to have had the privilege of inviting industry leaders in software quality assurance and development. Your contributions went far beyond the event—they sparked conversations, fueled ambitions, and set a benchmark for excellence.

Our Sponsor;
What's better than learning, networking, and making memories? Doing it makes awesome memories. We appreciate the management and team of QACEMEDIA for making this event colourful and memorable with professional pictures and videos.

Special appreciation to UAC FOODS LTD for the delicious treats. Our amazing participants couldn't resist posing with the delightful goodies from our proud sponsor, UAC Foods Limited mouthwatering snacks, UAC Foods truly added flavor to our event.

Thank you, UAC Foods Limited, for keeping everyone energized and smiling all day!

To all our participants, your excitement and energy made Test Forge 1.0 unforgettable.
